Distinguished Speakers Bureau Waiver on Recording Live Events

Security of student and faculty data has become a concern as we increasingly live our lives and work on digital platforms. AAS recently released a [statement](#) on online scholarship, safety, and academic freedom. In alignment with that statement, the AAS requests all participating institutions must sign this waiver indicating that they understand their commitment to not record the web event. Please input the institution name and date of event below.

I understand that _____ (name of institution) does not have the authority or permission to record the live digital DSB event. I understand that recording the event scheduled for _____ (date) will result in the voiding of DSB grant support.

Signature and Date
